L'ecopelle, pur della migliore qualità, è un materiale poroso che, a contatto con tessuti o elementi che stingono e a una sudorazione acida, assorbe la colorazione in maniera irreparabile, soprattutto nelle tonalità più chiare.

The imitation leather, even of best quality, has an open grain and when touching easily fading materials and fabrics or acid sweating, it absorbs colours irreparably, especially on light shades.

Das Kunstleder, obwohl aus beste Qualität, ist ein pöroses Material, das neben Bezügen, welche die Farbe verlieren, oder im Fall von Schwitzensäure, die Färbung besonders auf Kunstleder weiß und beige unersetzbar aufnimmt.

Le similicuir, même si de la meilleure qualité, est un matériel poreux, qui, à contact avec des tissus ou des matériaux qui déteignent facilement, ou avec une transpiration acide, absorbe la couleur de façon irréparable, surtout dans les teintes claires.

La imitación piel es un material poroso y, aunque de la mejor calidad, si en contacto con tejidos que descoloron y con una traspiración ácida, absorbe la coloración en manera irreparable, especialmente en las versiones blanco y beige.
